

Refund & Cancellation Policy (SAMPLE)

This is a SAMPLE policy bundled with the stripe-dispute-answer-automation template.

Replace this file with your own published refund & cancellation policy, or point

POLICY_PDF_PATH at it. The text below is illustrative only.

1. All purchases of digital products and subscriptions are final once the service has been delivered or made available, except where a refund is required by applicable law.
2. By completing a purchase, the customer accepts these terms and acknowledges immediate access to the digital service.
3. Subscriptions renew automatically until cancelled. Cancellation takes effect at the end of the current paid billing period; the customer keeps access through that period.
4. Customers are encouraged to contact support before initiating a dispute or chargeback.

This policy is presented to and accepted by the customer at checkout, before purchase.
